Danvers Public Schools Financial Assistance Consent Form
updated 8/26/2026

We understand that district fees can sometimes be a financial burden, and our goal is to ensure all students have equitable access to every opportunity. To assist families, our district offers financial support to waive fees for those who qualify.

To determine eligibility for this assistance, the Food Services department securely verifies your household's participation in various state and federal programs, such as SNAP, TANF, or Medicaid. We kindly request your consent for Food Services to share these results, as this data helps us identify families who automatically qualify for support. By providing your consent, you help us ensure that all eligible students receive the financial relief they need.

By signing below, I give consent for Danvers School Food Services to share the direct certification status of my child(ren) with the Business Office for the purpose of granting financial assistance with district fees.

Parent/Guardian Name (printed)

Parent/Guardian Name (signature)

Student Name(s):

Mission Statement of Danvers Public Schools – *Creating a supportive environment where all learners thrive*
